About Me

Currently pursuing a Bachelor of Computer Science at Kasetsart University, Sriracha Campus. Seeking a challenging internship or cooperative education opportunity from May to October 2025 (6 months, negotiable) as a Software Engineer or Developer. Passionate about coding, open source contributions, and end-to-end project development. Aiming to gain real-world experience and build a strong foundation for future careers in these fields.

Education

Bachelor Degree
Kasetsart University

Hobbies :   Compose a song, Sing a song, Basketball, Batmintion

Signature

Github	My Portfolio	Game Shop

Projects

2024
- Implemented POC website in NextJS and API in Go for fraud monitoring platform in Hack to the max digital infrastructure event. (1st runner up. The Best of Track Data Solution for Banks).

2023 - Present
- Built a secure, responsive game top-up platform using Next.js and TypeScript, with modern CSS3 for a seamless cross-device experience.

2022 - Present
- Built a portfolio website with React, using Firebase to track real-time engagement, including "hearts" (likes) and visitor counts.

2022
- Developed a cake shop management system in C, streamlining order processing and inventory management.
- Developed a management system for CheeseCake Cafe using Java and Apache NetBeans to streamline operations.

2017-2021
- Developed Showcase, VIBE, and Simulator games on Roblox using Lua, focusing on interactive and immersive experiences.
